

Tail Light Assembly for RANGER 2012

This tail lamp assembly is designed for the RANGER 2012 model. It provides essential rear illumination for safety and visibility.

Product Overview

High-Performance Rear Lighting Solution

This tail light assembly is precision-engineered for the 2012 RANGER model to ensure optimal rear visibility and safety. The unit features a robust multi-section lens design that effectively integrates brake, turn signal, and running light functionality. Built from high-quality, durable materials, this assembly is designed to withstand harsh environmental conditions and provides a reliable fit for seamless electrical integration.

Technical Specifications

Factory Identifier	wt-26-h-102
Integrated Functions	Brake Light, Turn Signal, Running Light

Compatibility & Installation

Installation Features

- Integrated rear housing
- Pre-wired assembly
- Standard electrical connectors

Compatible Model	RANGER 2012
