Overview

Efficient On-Demand Hot Water

This tankless natural gas water heater provides an efficient, space-saving solution for on-demand hot water supply. Designed for residential use, it eliminates the need for bulky storage tanks by heating water instantly as it flows through the unit. The system features adjustable controls for both gas and water flow, allowing users to customize temperature settings to suit seasonal needs.

Performance Metrics

Hot Water Capacity

6 L/min

Capacity

8 L/min

Capacity

10 L/min

Capacity

12 L/min
