

Taper, Plug, and Bottoming Tap Set

Set of three drill bits used for creating or enlarging holes. The set includes a taper tap, a plug tap, and a bottoming tap, each designed for a specific stage of threading a hole.

Product Overview

Comprehensive Threading Solution

This professional-grade tap set includes a taper tap, a plug tap, and a bottoming tap, providing a complete solution for manual threading operations. Each component is specifically designed for a different stage of the threading process, from initial starting to finishing threads at the bottom of blind holes. Constructed from durable metal, these tools are engineered for precision and longevity in various industrial applications.
