

Taper Shank HSS Twist Drill Bit

This high-speed steel (HSS) taper shank twist drill bit is designed for drilling large diameter holes in metal. It features a robust construction for demanding applications and a tapered shank for secure and accurate mounting in machine tool spindles.

Product Overview

Industrial-Grade Twist Drill

This high-speed steel (HSS) taper shank twist drill bit is engineered for precision and durability in heavy-duty metal drilling applications. The robust construction ensures long-lasting performance, while the integrated taper shank provides a secure, self-centering fit in machine tool spindles. Ideal for industrial drill presses, lathes, and milling machines, this bit is designed to handle demanding hole-drilling tasks with consistent accuracy.

Technical Specifications

Applications

- Metal drilling
- Large diameter hole drilling
- Drill presses
- Lathes
- Milling machines

Key Features

Robust Construction • Secure Mounting • Industrial Accuracy

Material Composition	HSS, High-Speed Steel
Shank Style	Taper Shank
