

TB33 Gasoline Engine

The TB33 is a compact gasoline engine designed for various applications. It features efficient combustion and easy starting.

Overview

Compact Power for Handheld Equipment

The TB33 is a compact and lightweight gasoline engine designed for versatile applications in handheld power tools. Featuring efficient combustion and a reliable diaphragm carburetor, this engine ensures consistent performance and easy starting. Its lightweight construction makes it an ideal choice for integration into trimmers, brush cutters, and similar machinery.

Technical Specifications

Cylinder Diameter	36 mm
Discharging Capacity	32.6 cc

Performance

Maximum Power

0.9 kW

Max Power

6500 r/min

Rated Speed

Fuel System

Fuel Tank Capacity	1.2 L
Carburetor Type	Diaphragm

Physical Characteristics

Net Weight	4 kg
------------	------

Applications

Suitable Applications	Trimmers, Brush Cutters, Handheld Power Tools
