

TDE25Z Electrical Socket

This electrical socket allows devices to connect to a power source. It ensures a stable and secure electrical connection.

Product Overview

TDE25Z Electrical Socket

The TDE25Z Electrical Socket is a professional-grade component designed for reliable power distribution in industrial and commercial environments. Built with high-quality materials to ensure safety and durability, this socket meets standard operational requirements for electrical connectivity. Its robust design makes it an ideal choice for projects where consistent performance and long-term reliability are essential.

Technical Specifications

Model Identifier	TDE25Z
Product Type	Electrical Socket
