

# Telescopic Aluminum Ladder

This telescopic ladder features a lightweight design and is easy to carry. It occupies very little space when folded and is convenient for various applications.

## Product Overview

### Professional Telescopic Ladder

This high-grade telescopic aluminum ladder offers a versatile and compact solution for home, office, and professional maintenance tasks. Featuring an oxidation-treated surface for superior rust resistance and a portable design that occupies minimal space when folded, it is engineered for convenience and durability. Equipped with advanced safety features including secure locking mechanisms and TPR anti-pinch loops, this ladder provides stability while remaining lightweight and easy to carry.

## Key Features

### Product Highlights

- Oxidation-treated aluminum surface for enhanced rust resistance
- Advanced safe lock mechanism for secure height adjustment
- TPR Loop design to prevent finger pinching during operation
- Non-slip cellular foam handle for comfortable grip
- Adjustable height for multi-functional usage

## Certifications

### Intellectual Property

National Patent, Germany Patent Pending, USA Patent Pending

## Design

### Surface Finish

Oxidation-treated • Rust-proof • Lightweight
