

# Telescopic Extension Ladder with Wide Steps

This telescopic ladder features wide steps for enhanced stability and comfort. Its collapsible design allows for compact storage and easy transport.

## ADDITIONAL IMAGES

## Product Overview

### Versatile Professional Telescopic Ladder

This telescopic extension ladder features an innovative design that transitions seamlessly from a compact 0.91m storage size to a full 3.81m working height. Engineered with wide, slip-resistant steps for improved operator comfort and safety, it is an ideal solution for contractors and maintenance professionals. The lightweight yet durable aluminum construction ensures portability without compromising on structural integrity.
