

Telescopic Handle Hedge Shear

This garden shear features high carbon steel blades for clean and precise cuts. Its telescopic handles allow for adjustable length and increased reach, while the ergonomic design includes comfort grip handles.

Product Overview

Professional Telescopic Hedge Shears

These professional-grade hedge shears are designed for precision trimming in landscaping and gardening applications. Featuring a telescopic handle system, they offer adjustable reach from 68cm to 98cm, allowing users to tackle hard-to-reach areas with ease. The combination of high-quality 65Mn steel blades and ergonomic PP+TPR grips ensures durability and reduced fatigue during extended use.
