Product Overview

Professional Telescopic Garden Saw

This high-performance telescopic pole saw is engineered for efficient tree pruning and shrub maintenance. Featuring a durable, curved blade designed for optimal cutting performance, it allows for clean and precise cuts on high branches. The adjustable telescopic pole provides extended reach, making it an essential tool for both professional landscapers and dedicated home gardeners seeking to reduce fatigue during prolonged pruning tasks.

Key Features

Blade Design	Curved blade for efficient cutting
Ideal For	Professional Landscaping, Home Gardening, Tree Pruning, Shrub Maintenance
User Comfort	Yes

Technical Specifications

Model Identifier	PG550/400/300
Reach	Telescopic adjustable
