

# Telescopic Swivel Head Snow Brush

This snow brush is designed for efficient snow removal from vehicles. It features a telescopic handle for extended reach and a swivel brush head for versatile cleaning angles.

## ADDITIONAL IMAGES

## Product Overview

### Professional Telescopic Snow Removal Tool

This telescopic swivel head snow brush is an essential tool for winter automotive maintenance, designed for efficiency and safety. It features a dual-side configuration with thick, non-scratch bristles for snow removal and a durable blade for scraping ice. The extendable handle allows for reaching the center of windshields and vehicle roofs with ease, ensuring clear visibility in harsh conditions.

## Key Features
