

Telescopic Vehicle Radio Antenna

This car antenna is designed to receive radio signals in vehicles. It features a telescopic design for adjustable length and optimal reception.

Product Overview

High-Performance Telescopic Vehicle Antenna

This telescopic vehicle radio antenna is engineered to provide reliable signal reception for automotive applications. Its adjustable telescopic design allows users to optimize signal strength based on their specific environment. Built for durability and ease of installation, this antenna is an essential component for maintaining clear radio communication in various vehicle types.

Technical Specifications

Model Number	101-06-03B
Antenna Type	Telescopic, Vehicle Antenna, Radio Reception

Logistics & Packaging

Packaging Details

100 pcs Units per Pack	12.5 kg Net Weight	14 kg Gross Weight
----------------------------------	------------------------------	------------------------------

Carton Dimensions

Dimension	Value
Length	49 cm
Width	37.5 cm
Height	32.5 cm
