

Telescopic Vehicle Steering Wheel Lock

This steering wheel lock features a telescopic design for adjustable length and enhanced security. It is equipped with a grip handle and a U-shaped arm to effectively immobilize the steering wheel.

Product Overview

Robust Vehicle Security Solution

This telescopic steering wheel lock provides a highly visible and effective deterrent against vehicle theft. Designed for ease of use, the adjustable telescopic mechanism allows for a secure fit across a variety of steering wheel sizes. Its heavy-duty construction prevents unauthorized steering, ensuring your vehicle remains immobilized when parked.
