

# Telescoping Inspection Mirror

This inspection mirror features a telescoping shaft for extended reach in confined spaces. Its adjustable mirror head allows for optimal viewing angles during automotive, plumbing, HVAC, and general inspection tasks.

## Product Overview

### Versatile Inspection Solution

This telescopic inspection mirror is a professional-grade tool designed for accessing hard-to-reach areas in automotive, plumbing, and HVAC maintenance. Featuring a durable telescopic shaft, it allows for extended reach and precise adjustment in confined spaces. The universal ball-and-socket joint ensures the mirror stays securely in place at any angle, providing clear, distortion-free visibility for professional inspections.

## Technical Specifications
