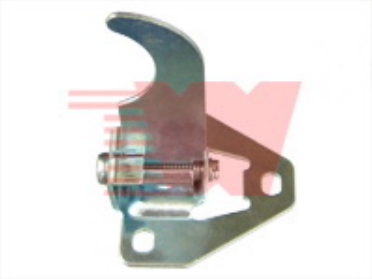
Television Panel Latch Mechanism

Replacement latch mechanism designed for securing television panels or components. The mechanism features a metal construction with a pivoting hook and a mounting bracket with pre-drilled holes for attachment.



Product Overview

Television Panel Latch Mechanism

This replacement latch mechanism is precision-engineered for secure television panel retention. Constructed with durable metal, it features a reliable pivoting hook design that ensures component stability during operation. The assembly includes a mounting bracket with pre-drilled holes for straightforward installation and comes complete with necessary fastening hardware.

Technical Specifications

Included Components

- Pivoting Hook
- Mounting Bracket
- Bolt
- Nut

Material Composition	Metal
Key Features	Pivoting Hook, Mounting Bracket, Pre-drilled Holes
Mounting Type	Bolted
