

Textile Hydro Extractor

These hydro extractors efficiently remove water from textiles and garments using centrifugal force. The machines have stainless steel construction, a control panel, and safety features, including a lid lock and emergency stop button.

Overview

Industrial Textile Hydro Extractor

This industrial hydro extractor is designed to efficiently remove excess water from textiles, garments, and various materials using centrifugal force. Built with robust stainless steel, it offers exceptional durability and corrosion resistance for demanding laundry environments. The unit features precise control over spin speeds and cycle times, complemented by essential safety mechanisms like lid locks and emergency stops to ensure secure operation.

Construction & Design

Material Construction	Stainless Steel
Design Features	Corrosion Resistant, Robust Build, Mobile Collection Tank

Operational Control

Adjustable Parameters

- Spin Speed
- Cycle Time

Control Panel	Yes
---------------	-----

Safety Features

Safety Mechanisms

Lid Lock Mechanism • Emergency Stop Button
