Overview

Premium Thermo-Electronic Cigar Humidor

This high-end electronic cigar humidor is designed to provide an optimal storage environment for cigar enthusiasts. Utilizing advanced thermo-electric cooling, it minimizes drying effects often caused by traditional compressor systems, ensuring your collection remains in peak condition. The interior features Spanish cedar shelves and a drawer to help maintain humidity levels while providing a natural, protective aroma. It is an ideal solution for storing, preserving, and aging cigars within the recommended 62% to 75% humidity range.
