

Thermoelectric Cooler and Warmer for Personal Use

This thermoelectric device cools 23-25°C below ambient or heats to 60±5°C via thermostat. It consumes 18-20W and uses LEDs to indicate cooling/warming status; an optional DC12V power supply is available.

Product Overview

Versatile Personal Climate Control

The GT-01 is a compact, thermoelectric cooler and warmer designed for personal convenience in various environments. Capable of both cooling and heating, this versatile unit maintains temperatures efficiently, making it an ideal companion for home, office, or automotive use. Its portable design and dual-temperature functionality ensure your beverages and snacks are always at the perfect temperature, whether you are commuting or camping.

Performance Specifications

Cooling Capacity

25 °C

Cooling Below Ambient

Heating Capacity: 60 °C

Power Consumption: 20 W

Design & Features

Container Compatibility

- 0.35 Liter
- 0.5 Liter

Status Indicators

Green LED (Cooling) • Red LED (Heating)

Power Options: DC12V Optional

Logistics & Packaging

Unit Dimensions: 19.0 x 12.5 x 14.7 cm

20' Container Capacity: 7560 pcs
