

Thermoelectric Cooler and Warmer

This thermoelectric cooler and warmer has a 6-liter capacity. It cools to 20-25°C below ambient temperature and heats up to 60±5°C.

Overview

Versatile Thermal Control

This portable thermoelectric cooler and warmer provides flexible temperature management for home, office, or automotive environments. With a compact 6-liter capacity, it efficiently cools items up to 25°C below ambient temperature or heats them to 60°C. Designed for convenience, the unit features dual-mode operation with clear LED status indicators and supports both AC and DC power inputs.
