

Thermoplastic Pipe Butt Welding Machine

This machine performs butt welding of thermoplastic pipes and fittings. It offers high reliability and ease of use for PE pipe welding.

Product Overview

Professional Thermoplastic Welding Solution

This thermoplastic pipe butt welding machine is designed for simplicity, ease of use, and high reliability. It offers a cost-effective solution for joining PE pipes, making it an ideal choice for community water supply projects, communication infrastructure, and jacket piping systems. Its robust design ensures consistent performance for small-diameter pipe welding applications.

Key Features

Performance Metrics

160 mm

Max Pipe Capacity

Key Benefits

- Simple operation
- High reliability
- Low cost maintenance
- Compact design

Common Applications

Water Supply, Communications, Jacket Piping
