Product Overview

Reliable Thermal Protection for Appliances

These snap-action thermal switches provide precise temperature control and overheating protection for a wide range of home and office appliances. Featuring a robust bimetal design, they ensure high sensitivity, quick action, and long-term durability. The automatic reset functionality and compact build make these switches an essential component for maintaining safety and operational efficiency in various electrical devices.

Technical Specifications

Electrical Performance

Model	Voltage	Current	Temperature
KSD302	250V	25A	140°C
KSD303	250V	10A	40°C

Series Models

KSD302, KSD303

Application

Compatible Appliances

- Water Heaters
- Clothes Dryers
- Fireplaces
- Hair Dryers
- Shredders
- Soybean Milk Machines
- Toasters
- Electric Kettles
- Microwave Ovens
- Coffee Makers
- Water Dispensers
- Portable Ice Coolers
- Computer Equipment

Features

Key Features

Automatic Reset • Snap Action • High Sensitivity • Compact Size • Lightweight • Metal Housing
