Product Overview

Professional Grade Thread Cutting Die Sets

These high-precision thread cutting dies are engineered for creating accurate, consistent threads on a variety of piping materials. Constructed from premium alloy steel or high-speed steel, they ensure durability and longevity in demanding industrial environments. The set is compatible with multiple machine models, offering versatility for professional threading operations.

Technical Specifications

Available Sizes

- 1/2"-3/4"
- 1"-2"
- 2.1/2"-3"
- 2.1/2"-4"
- 5"-6"

Material Application

Die Material	Compatible Pipe Type
Alloy Steel (9SiCr)	Galvanized Pipe
High-Speed Steel (HSS)	Stainless Steel Pipe

Compatible Machine Models

P50, P50F, P80, P80F, P100, P100F, P150
