

Thread Cutting Dies

These precision-engineered dies are designed for creating accurate and consistent threads on various materials. Crafted from high-quality steel, the dies offer durability and long-lasting performance for threading applications.

Product Overview

Precision Thread Cutting Dies

These precision-engineered dies are designed for creating accurate and consistent threads on a variety of materials. Crafted from high-quality steel, they offer exceptional durability and long-lasting performance for demanding applications. Featuring sharp cutting edges and precise threading profiles, these dies ensure clean, professional results in metalworking, construction, and plumbing projects.

Technical Specifications

Available Sizes

- 1/2"-3/4"
- 1"-2"
- 2.1/2"-3"
- 2.1/2"-4"
- 5"-6"

Applications	Metalworking, Construction, Plumbing
Material	High-quality steel
