

Thread Seal Tape PTFE 12mm x 10m

Thread seal tape is designed for creating airtight seals on threaded connections. It is compatible with a wide range of materials, including metal, plastic, and rubber and provides excellent resistance to chemicals, solvents, and high temperatures.

Product Overview

Versatile PTFE Thread Seal Tape

This high-quality PTFE thread seal tape is engineered to provide airtight and leak-proof seals on various threaded connections. Ideal for demanding environments like plumbing and HVAC systems, it maintains integrity across metal, plastic, and rubber interfaces. Its chemical resistance and temperature tolerance ensure reliable performance in professional industrial applications.

Physical Dimensions

Width	12 mm
Thickness	0.075 mm
Roll Length	10 m

Technical Metrics

Material Density

0.3 g/cm³

Density

Compatible Materials

- Metal
- Plastic
- Rubber

Material Composition

Base Material	PTFE
