

Thread Stand with Multiple Spool Holders

This thread stand is a robust and versatile accessory designed to streamline thread management in sewing, embroidery, and other textile-related applications. The adjustable height and rotating arm provide optimal thread delivery, preventing tangles and ensuring smooth operation.

Overview

Versatile Thread Management Solution

The 42-604 Thread Stand is a robust and versatile accessory designed to streamline thread management in sewing, embroidery, and textile applications. It features a stable base with multiple spool holders that accommodate various thread sizes and types, ensuring organized operation. With an adjustable height and rotating arm, it provides optimal thread delivery to prevent tangles and enhance efficiency in both industrial and home environments.

Technical Features

Performance Highlights

1 Qty

Rotating Arm

1 Feature

Adjustable Height

Construction Material	Durable materials with a stable base
Thread Delivery System	Rotating arm for smooth, tangle-free operation

Applications

Suitable Environments

Industrial • Home Use • Sewing Workshops • Embroidery Studios

Compatible Thread Types

- Various thread sizes
- Multiple spool types
- Sewing threads
- Embroidery threads

Design & Utility

Key Benefits	Tangle Prevention, Efficiency, Organization, Smooth Operation
Spool Capacity	Multiple spool holders
