

Threaded Ball Valve, 2-Piece Stainless Steel

This 2-piece threaded ball valve is suitable for use in oil fields, chemical industries, and coal mines. It is also applicable in environmental protection systems.

Product Overview

Industrial 2-Piece Threaded Ball Valve

This 2-piece threaded ball valve is engineered for industrial applications that demand reliable flow control and shutoff capabilities. Constructed from high-grade stainless steel, this valve ensures long-term durability and resistance to harsh operating environments. Its threaded connection design facilitates quick and secure installation, while the 1000 WOG rating makes it versatile for water, oil, and gas media applications.

Technical Specifications

Pressure Rating

1000 WOG
Pressure Rating

Valve Type	2-Piece Threaded Ball Valve
Material	Stainless Steel, WCB
Model Series	Q11F

Installation & Application

Suitable Media

- Water
- Oil
- Gas

Connection Type	Threaded
