Product Overview

Professional Service Entrance Protection

This threaded service entrance head is engineered for reliable outdoor use with Rigid or IMC conduit. It provides a secure, weather-resistant termination point for service entrance conductors, effectively shielding electrical systems from environmental elements. Designed for ease of installation, each unit features an electrical-grade phenolic insulator with multiple ports to accommodate various cable configurations.

Technical Specifications

Material & Finish	Aluminum, Polished Finish
Application Type	Conduit Fittings
Insulator Material	Electrical grade phenolic
