

# Threaded Stem Rubber Caster with Side Brake

This small caster has a durable rubber wheel, ensuring smooth and quiet movement. It also features a threaded stem for easy and secure mounting, along with a side brake for convenient locking.

## Product Overview

### Versatile Mobility Solution

This Threaded Stem Rubber Caster is designed to provide smooth, reliable mobility for light-duty equipment. The durable rubber wheel construction ensures quiet operation and floor protection across various surfaces. Featuring a convenient side brake, this caster allows for secure locking to maintain stability during operation.

## Technical Specifications
