

Three-Burner Stainless Steel Gas Cooktop

This is a three-burner gas cooktop featuring a stainless steel surface. It includes two standard burners and a smaller auxiliary burner.

Overview

Modern Residential Gas Cooktop

This three-burner gas cooktop is designed for modern residential kitchens, combining durability with a sleek aesthetic. Featuring a high-quality stainless steel surface and robust enamel-coated grates, it provides a reliable cooking solution for various culinary needs. The intuitive control system allows for precise flame adjustment across all three burners.
