

Three-Burner Tabletop Gas Cooker

This gas cooker is designed for tabletop use and features three burners. It includes a stainless steel panel, cast iron pan support, and piezoelectric ignition with optional LPG/NG compatibility.

Product Overview

Professional Tabletop Cooking Solution

This three-burner tabletop gas cooker is engineered for high-performance cooking in professional or commercial kitchen environments. Featuring a durable stainless steel panel and robust cast iron pan supports, it offers exceptional stability and heat resistance. The unit utilizes reliable piezoelectric ignition and versatile fuel compatibility to ensure seamless operation for demanding culinary tasks.
