Product Overview

High-Performance Drilling Solution

The Three-Cone Single Screw Full-Face Drill Bit is engineered for demanding rock drilling and piling applications. Featuring a specialized three-cone configuration and a full-face broken short spiral design, it ensures efficient material removal and enhanced drilling speed. This tool is built for durability and stability, making it an ideal choice for heavy-duty construction and geotechnical projects.

Technical Specifications

Design Configuration	Three-Cone, Single Screw, Full-Face, Broken Short Spiral
Auger Compatibility	Taper or Standard

Application & Usage

Compatible Stratum

- Hard rock
- Gravel
- Intense to weakly weathered rock
- Hard permafrost

Customizable Components

Cutting Tooth • Blade
