

Three-Door Refrigerator with Tempered Glass Door

This refrigerator features a colored crystal tempered glass door with traditional Chinese painting designs. An activated carbon deodorizer eliminates odors by absorbing harmful molecules, ensuring a fresh and clean interior, and the three-door design offers convenient organization.

Product Overview

Refined Design Meets Functional Efficiency

This three-door refrigerator combines advanced cooling technology with a sophisticated aesthetic, featuring high-tech colored crystal tempered glass doors adorned with traditional artistic designs. The unit is engineered for optimal freshness, utilizing an integrated activated carbon deodorizer to neutralize odors and maintain a clean environment. With its versatile three-door configuration, the refrigerator provides an organized storage solution suitable for demanding professional and home use environments.
