

Three-Phase Asynchronous Motor

This three-phase asynchronous motor features robust construction and an efficient cooling system. It is suitable for driving pumps, fans, compressors, and other machinery.

General Overview

Industrial Three-Phase Asynchronous Motor

The YY series three-phase asynchronous motor is engineered for reliable performance in diverse industrial environments. Built with 100% copper wiring, these motors ensure high efficiency and durability for demanding applications like pumps, fans, and compressors. The series strictly adheres to international quality and safety standards, providing professional buyers with a dependable power solution.

Technical Specifications

Power Output Range

0.04 kW

Minimum Power

2.2 kW

Maximum Power

Available Frame Sizes

- 50
- 56
- 63
- 71
- 80
- 90

Quality & Compliance

Certifications	CCC, CE, ISO 9001:2015
Compliance Standards	GB/T 19001-2006

Construction

Winding Material

100% Copper Wire
