

Three-Phase Digital Kilowatt-Hour Meter

This three-phase electronic kilowatt-hour meter is designed for the accurate measurement of electrical energy consumption. The meter features a digital display for easy reading of energy usage.

Product Overview

DTS870 Three-Phase Electronic Meter

The DTS870 is a robust electronic kilowatt-hour meter engineered for the precise measurement of three-phase electrical energy consumption. Designed for versatility, this meter provides reliable performance across industrial, commercial, and residential environments. Its clear digital interface ensures accurate and efficient energy monitoring for professional applications.

Technical Specifications

Accuracy Class

Class 1

Model	DTS870
Voltage Rating	3x230/400V
Current Rating	5(80)A
Frequency	50 Hz

Compliance

Standards	IEC62053-21
