

Three-Pole Electrical Contactor

This three-pole contactor features a coil voltage of 110 VAC at 50/60 Hz. It has a contact rating per pole of 30 FLA, 150 LRA, and 40 RES at 240/277 VAC; 30 FLA, 125 LRA, and 40 RES at 480 VAC; and 30 FLA, 100 LRA, and 40 RES at 600 VAC.

Overview

Reliable Three-Pole Contactor

This three-pole electrical contactor is engineered for robust switching performance in industrial and commercial electrical systems. Designed to handle varying voltage and load requirements, it ensures consistent operation and safety. With specific torque requirements for secure installation, this component provides a reliable solution for managing electrical circuits effectively.

Electrical Ratings

Contact Ratings per Pole

Voltage (VAC)	FLA (A)	LRA (A)	RES (A)
240/277	30	150	40
480	30	125	40
600	30	100	40

Coil Voltage: 110 VAC

Operating Frequency: 50/60 Hz

Installation

Torque Requirements (CU 75C)

22 in lbs

Screws

40 in lbs

Lugs

General Features

Number of Poles	3
Certifications & Compliance	CU 75C Rated
