

Three-Seat Perforated Metal Waiting Chair with Armrests

This waiting chair features a one-mould press design for enhanced durability. Its design saves on material costs.

Product Overview

Professional Waiting Room Seating

This three-seat waiting chair is engineered for durability and comfort in high-traffic public environments. Constructed from robust, perforated metal, the seat and backrest design promotes airflow and ease of maintenance. With integrated armrests and a sturdy three-legged base featuring adjustable feet, it provides a stable and professional seating solution for lobbies, clinics, and waiting areas.
