

Three-Step Portable Ladder with Anti-Slip Steps

This heavy-duty iron ladder is designed for both portability and stability. It features anti-slip steps, sponge handrails, and PP+TPR wheels for enhanced safety and ease of movement.

Product Overview

Versatile Portable Ladder

This heavy-duty iron ladder is engineered for both portability and stability in professional environments. Featuring a 150 kg load-bearing capacity and a 90 kg capacity for carrying items, it offers a practical solution for elevated tasks. Designed with safety in mind, it includes anti-slip steps, sponge handrails, and smooth-rolling wheels, ensuring ease of movement and secure operation.

Technical Specifications

Model Number	HB4920-B
Number of Steps	3
Working Height	0.7 m
Step Distance	250 mm
Product Weight	7.2 kg

Performance & Capacity

Load Capacity

150 kg

Max Load Capacity

90 kg

Item Carrying Capacity

Safety & Compliance

Insurance Coverage

PICC Insured

Certifications & Standards

EN14183, RoHS, PAHs Compliant, SGS Tested, TÜV Tested

Design Features

Key Features

- Anti-slip steps
- Sponge handrails
- PP+TPR wheels
- Heavy-duty iron construction
- Non-heavy metal and non-PAH materials
