Product Overview

High-Capacity Commercial Frozen Beverage Solution

This three-tank commercial slush machine is engineered to deliver high-quality frozen beverages including slushies, smoothies, and milkshakes. Featuring independent refrigeration systems for each tank, it ensures consistent product texture and optimal serving temperatures across multiple flavors. Designed for durability and ease of maintenance, the unit provides a quiet and energy-efficient solution for busy foodservice environments.

Technical Specifications

Operational Noise	55 dB
Number of Tanks	3
Customization	Adjustable Voltage, Adjustable Frequency, Adjustable Power

Design and Build

Key Features

- Luxury streamline design
- Advanced electronic temperature control
- High-brightness energy-saving lighting
- Food-grade high-density bowls
- High-intensity stirring system
- Closed energy-efficient compressor

Maintenance

Easy to Clean • Humanized Design • Durable Construction
