

Three-Tank Granita Slush Machine

This machine is designed to offer granite and fresh slush drinks. It features a dual beater mixing system and a sturdy, non-poisonous polycarbonate tank.

Overview

Professional Granita Slush Solution

This high-capacity, three-tank granita slush machine is engineered for commercial environments, allowing you to serve a variety of frozen beverages simultaneously. It features a durable stainless steel cabinet and high-quality polycarbonate tanks that are resistant to acids, alkalis, and low temperatures. With efficient, quiet operation and user-friendly maintenance, it is an ideal solution for high-volume food service establishments.

Performance & Operation

Hardness Control Mechanism	Electrical Torque
Mixing System	Dual beater (inside and outside of evaporator cylinder)
Cooling System	Air-cooled condenser
