

Three-Tier Stainless Steel Chocolate Fountain

This three-tiered chocolate fountain features a stainless steel construction for the tiers and a black base. The unit includes a rotary dial for heat and motor control and is designed to create a cascading chocolate effect.

Product Overview

Professional Three-Tier Chocolate Fountain

This stainless steel chocolate fountain is designed to create a smooth, cascading chocolate effect for parties and events. Featuring a durable three-tier construction and a stable base, it offers reliable performance for commercial or high-end residential use. The intuitive rotary control system allows for independent management of heating and motor functions, ensuring the perfect chocolate consistency.
