Overview

Innovative Three-Wheel Urban Mobility

This three-wheeled scooter is engineered for the modern urban commuter, featuring a unique independent four-arm front suspension that allows for a 30-degree tilting angle, ensuring agile handling in city traffic. Equipped with a patented foldable canopy and electric windshield wipers, it provides all-weather protection and enhanced comfort. The vehicle combines a powerful 188.6cc water-cooled engine with practical amenities like a spacious tail box, TFT LCD instrumentation, and dual USB charging ports, making it a safe and convenient solution for daily transportation.
