

Three-Wheeled Motorized Cargo Vehicle

This three-wheeled vehicle measures 2750 mm x 1000 mm x 1200 mm and has a maximum load capacity of 200 kg. Powered by a 107 ml single-cylinder, air-cooled, four-stroke engine, it features drum-type brakes and handlebar steering.

Overview

Versatile Three-Wheeled Cargo Vehicle

The HL110ZH-2 is a reliable three-wheeled cargo vehicle designed for efficient short-distance logistics and transport. Powered by a robust 107ml single-cylinder, air-cooled engine, it balances maneuverability with a 200kg load capacity. Its compact design and handlebar steering make it an ideal choice for navigating narrow urban paths or industrial sites.
