

# Three-Wheeled Non-Motorized Passenger Cycle

This is a three-wheeled cycle designed for passenger transport. The non-motorized design includes a covered area for passengers and an open driver's seat.

## Product Overview

### Eco-Friendly Passenger Transport

This three-wheeled non-motorized cycle offers a sustainable and efficient solution for short-distance passenger transport. Featuring a dedicated covered seating area for passengers and an open-air driver compartment, it is designed for comfort and ease of operation. Its robust construction makes it an ideal choice for urban mobility, tourism, or specialized transport services.

## Technical Specifications
