

Thumbscrew Hose Clamp

This thumbscrew hose clamp is designed for securing hoses and tubes. The clamp features a perforated band for adjustable sizing and a thumbscrew for easy tightening and loosening without tools.

Product Overview

Professional Grade Thumbscrew Hose Clamp

This stainless steel thumbscrew hose clamp is engineered for robust performance in industrial, automotive, and plumbing environments. Its design features a perforated band for precise, adjustable sizing and an integrated thumbscrew for convenient, tool-free installation and removal. The attached wing nut mechanism ensures a reliable, secure connection, making it the ideal solution for applications requiring frequent adjustments or quick maintenance.

Technical Specifications

Material	Stainless Steel
Adjustment Type	Manual Thumbscrew (Wing Nut)
Key Design Elements	Perforated Band, Tool-free Adjustment, Adjustable Sizing

Application

Suitable Applications

- Automotive Systems
- Plumbing Installations
- Industrial Hose Connections
