

# Tiered Glass Cone Pendant Light

This pendant light features clear, conical glass shades in a tiered arrangement. Each light has a central bulb within the glass cone, providing focused illumination and a metallic ring at the base.

## Overview

### Modern Tiered Glass Design

The Tiered Glass Cone Pendant Light is a sophisticated lighting solution designed for contemporary interior spaces. It features clear, conical glass shades arranged in a unique tiered configuration, providing focused and elegant illumination. Each unit is suspended by thin cables to create a modern floating effect, complemented by metallic ring accents at the base of each cone.
