

# Tiered Shade Garden Path Light

Outdoor garden lighting fixtures are designed for landscape illumination. These path lights feature tiered shade designs, providing diffused downward lighting.

## Overview

### Tiered Shade Garden Path Light

This tiered shade garden path light is engineered for professional landscape illumination. Its distinctive tiered design ensures soft, diffused downward lighting, making it an excellent choice for enhancing safety and aesthetics along pathways, driveways, and garden beds. Built with durable materials, this fixture offers superior weather resistance to ensure long-lasting performance in outdoor environments.

## Design & Construction

Design Style	Tiered Shade
Primary Applications	Pathways, Driveways, Garden Beds, Landscape Illumination

## Performance

Durability	Weather Resistant • Durable Construction
Lighting Effect	Diffused downward lighting
