

Tile and Stone Cutting Power Tool

This compact power tool is designed for cutting hard materials such as tile, stone, and masonry. It features a diamond blade for precise and efficient cutting, a water cooling system to reduce dust and extend blade life, and an adjustable base for bevel cuts.

Overview

Professional Tile and Stone Cutting Solution

This compact power tool is engineered specifically for precision cutting of hard materials, including tile, stone, and masonry. It features a high-performance diamond blade designed for efficiency and clean cuts, supported by an integrated water cooling system that effectively minimizes dust and prolongs blade longevity. With an adjustable base for bevel cuts, this tool provides the versatility required for professional masonry and tiling projects.

Key Features

Technical Highlights

- Diamond blade for high-precision cutting
- Integrated water cooling system
- Adjustable base for bevel cuts
- Compact and portable design

Cutting Capabilities

Tile, Stone, Masonry
