Product Overview

Professional Tile Cutting Solution

This table-type tile cutter is engineered for versatility and precision, handling materials like polished, vitrified, and standard tiles of any size. Beyond straight cutting, the machine supports advanced processing including 45-degree chamfering, straight edge grinding, and arc grinding. With integrated water cooling and a sliding table design, it ensures clean, chip-free cuts while minimizing dust for professional-grade results.

Technical Specifications

Processing Functions

- Straight cutting
- 45-degree chamfering
- Straight edge grinding
- Arc grinding
- Anti-skid groove cutting

Compatible Materials

Ceramic, Porcelain, Polished tiles, Vitrified tiles

Features

Equipment Features

- Robust motor
- Adjustable cutting guide
- Water cooling system
- Sliding table mechanism
- Diamond-tipped blade
