Overview

Precision Tile Installation

This professional-grade leveling system is designed to eliminate lippage and ensure a perfectly uniform surface for both wall and floor tiling projects. By maintaining consistent tile height during the adhesive setting process, the system prevents shifting and costly repairs. The comprehensive kit includes ergonomic pliers, durable wedges, and spacer bases, providing a reliable one-stop solution for high-quality tile installations.

Technical Specifications

Base Size Options

- Shorter base: 75 x 11 x 1.5 mm
- Longer base: 108 x 11 x 1.5 mm

Wedge Dimensions

40 x 11 x 15 mm

Available Base Shapes

Flat base, Curved base

Usage Information

System Advantages

- Eliminates tile lippage
- Holds tiles level during adhesive setting
- Reusable leveling caps
- Includes manual leveling plier

Ideal Applications

Wall tiling • Floor tiling
