

Tillage Machine

This tillage machine is designed for efficient soil preparation and cultivation. It is suitable for use in plains, mountainous regions, paddy fields, dry land, and orchards, offering versatile plowing, raking, and leveling capabilities.

Overview

Versatile Tillage Solution

This 1Z-31 type tillage machine is designed for efficient soil preparation across diverse terrains. It is particularly effective for plowing, raking, and leveling in paddy fields, dry lands, and orchards. Its robust construction and compact design ensure reliable performance in both mountain and hilly areas.

Applications

Primary Functions

- Plow
- Rake
- Dish
- Flat field operations

Suitable Terrains

Mountain Areas, Hilly Areas, Paddy Fields, Dry Land, Orchards

Technical Specifications

Key Components

Gasoline Engine • Transmission System • Tilling Wheels • Adjustable Control Panel

Model Type

1Z-31

Transmission System

Belt-driven
